198	Sent	To +19164207906	2/19/2015 6:33:30 PM(UTC+0)	Sent	I am too honestly afraid to meet in person, and I am willing to arrange any way to get you title fedex, drop off, whatever, but can you please let me get through my friends dads funeral in NYC tomorrow on the \$500,000. This is the problem with how these things start out. Historically they don't end. I'm not much in a position to bargain, ,but when we were friends, I always gave you good advice that helped you out. If I considered your \$500,000 request, would you consider returning the car? Buying yourself your own will be better for you and in your new life a less flashy car will serve you better long term. A car like my R8 will call a lot of attention to you and a low profile will keep you enable you to make a new life without unwanted attention. I ask you to consider this request and advice in the context of the advice and counsel I gave you when we were friends.

If package doesn't show up by last delivery, we can regroup and figure out the plan. (I'll need odometer miles when I get title in my hands but don't give it to me yet cause FL said CA will be freaks about accuracy). Like I said, I have delivery notifications set up and you can track also. We're doing a final check with CA DMV to see if we get any better answer.
